

Learning Agreement

Academic year 2026-2027

The purpose of the Learning Agreement is to provide a transparent and efficient preparation of the study period abroad and to ensure that the student will receive recognition in his/her degree for the courses successfully completed abroad. By signing this document, the student, the home institution and the host institution confirm that they approve the Learning Agreement and that they will comply with all the arrangements agreed by all parties. Home and host institutions undertake to apply all the principles of the Erasmus Charter for Higher Education (ECHE) and/or of the SEMP Charter for Higher Education relating to mobility for studies (and all other principles agreed upon in the Inter-institutional Agreement). The host institution confirms that the courses/educational components listed in Table A are in line with its course catalogue and should be available to the student. The home institution commits to recognise all the ECTS credits or equivalent units gained at the host institution for successfully completed courses and to count them towards the student's degree. Any exceptions to this rule are to be documented in an annex to this Learning Agreement and agreed upon by all parties. The student and the host institution will communicate to the home institution any problems or changes regarding the courses to be attended or the study period.
